[Art Student Opportunity – Virtual SECAC](#)

Art students are invited to attend this year's [SECAC](#) (formerly the Southeastern College

Art Conference). The virtual conference, which will run from November 30 to December 11, is free to members and a student membership is only \$35. Use the code: Grad2020 on the conference site after paying for membership. Please consider attending!

[Hertog Winter Online Seminar Series](#)

The [Hertog Foundation](#) presents its [Winter Term Seminar Program](#), which will offer lively conversation on fundamental human questions as they arise in four major novels: Jonathan Swift's *Gulliver's Travels*, Dostoevsky's *Demons*, Saul Bellow's *Ravelstein*, and Ralph Ellison's *Invisible Man*.

A description of the program from the Hertog Foundation website: "The political novel, Irving Howe writes, "is peculiarly a work of internal tensions" – the tension between capturing concrete experience and conveying abstract ideas. The novels in this online seminar series are emblematic of the power this tension generates. Some classic, some contemporary, some tragic, some comic, these novels reveal how human life – in all its complexity and contingency – transforms and is transformed by ideas."

Evening sessions will meet weekly via Zoom. Participants will also be invited to a series of conversations on the future of higher education and liberal arts learning. Students will receive a small stipend and all course materials. The deadline to apply is December 1.

[Thomistic Institute – A Symposium on Aquinas' Proofs](#)

The [Thomistic Institute](#) is hosting a three-day symposium (in-person) on Aquinas' proofs for God's existence and their place in his metaphysical framework. This symposium-style conference will take place at from Friday, December 4 to Sunday, December 6 at St. Bernard Abbey in Cullman, AL. To find out more about the event and to apply, visit the [Thomistic Institute website](#). The deadline to apply is **November 20**.

Tethered Oscillator – Exhibition by Leticia Bajuyo

The Beatrice M. Haggerty Gallery is proud to announce the solo exhibition Tethered Oscillator by interdisciplinary artist Leticia Bajuyo, on from October 24 to January 26, 2021. Please check the [gallery website](#) for the most up to date visitor information.

Leticia Bajuyo is known for her large-scale installations made up of thousands of shiny CDs or DVDs. This installation is inspired by the concept of a coupled oscillator. In physics, coupled oscillators are oscillators connected in such a way that energy can be transferred between them. The artist is planning to suspend two of her iconic horn-shaped theremin in the Haggerty gallery and allow visitors to attempt to perform the two instruments at once, thus becoming the spring-like force that connects the two forms.

Date and Time: Exhibit continues through January 26, 2021
